

ALX2 BARBEQUES - ROTISSERIE SPEAR SPACER RETROFIT KIT

In order to adjust the spear's length to the unit to ensure a proper "ride" on the left side rollers and to properly lock into the right side rotisserie coupler, a STOP plate has been designed to shim the spear into the correct location within the unit.

Please install the SPIT ROD Spacer (Part # 100-1202) as shown on the following pictures:

INSTALLATION:

1. REMOVE ROLLERS SCREWS
2. INSTALL SPIT ROD SPACER BETWEEN REAR HOOD WALL AND ROLLER BEARINGS.
3. FASTEN THE ASSEMBLY
4. DO NOT OVERTIGHTEN SCREWS.

SPIT ROD SPACER LOCATED PROPERLY IN THE REAR HOOD ASSEMBLY AFTER INSTALLATION
