

## ALX2 MODELS

### LAMP REPLACEMENT INFORMATION:

There are two lamp models available in the ALX2 family of barbeques. The change in lamps is part of our continued improvement of our products.

In order to determine the correct replacement lamp for your ALX2 unit, remove the lamp protective glass cover (figure # 1) and identify the proper lamp shape on figures 2 and 3.

Protective Glass Cover  
Part # 210-0286

*Figure # 1*

*Figure # 2*

75T3QCL – R7 Base  
75W - 120 VAC  
Part # 210-0310

*Figure # 3*

G940120 - G9 Base  
40 W - 120 VAC  
Part # 210-0317

**Note:** Use a soft clean cloth when handling lights. Always keep halogen lights free of fingerprints and grease when replacing.
